			Yea	rs				
		20	27			20	28	
Target rate / midpoint of target range (percent):								

1b) What are your expectations for the Chair's press conference?

3b) In addition, provide your estimate of the longer run target federal funds rate and your expectation for the average federal
funds rate over the next 10 years. Please provide your responses out to at least one decimal place (e.g. for one percent enter
1.0, not 0.01).

Longer run (percent):	
Expectation for average federal funds rate over	
next 10 years (percent):	

3c) Please indicate the percent chance* that you attach to the target federal funds rate or range falling in each of the following ranges <u>immediately following the April/May and June FOMC meetings and at the end of 2024 and 2025</u>. If you expect a target range, please use the midpoint of that range in providing your response.

	≤ 1.50%	1.51 - 2.00%	2.01 - 2.50%	2.51 - 3.00%	3.01 - 3.50%	3.51 - 4.00%	4.01 - 4.50%	4.51 - 5.00%	5.01 - 5.50%	≥ 5.51%	Total
Year-end 2025:		0 %					0 %		0 %	0 %	0 %

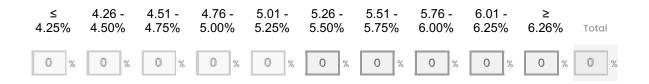

Year-end

2024:**

^{*}Responses across each row should add up to 100 percent.

^{**}Bins were chosen with consideration to responses to question 2c in the March 2024 SPD and SMP.

3d) Please indicate the percent chance* that you attach to the <u>highest level of the target range for the federal funds rate before</u> the target range is next decreased falling in each of the following ranges.

^{*}Responses should add up to 100 percent.

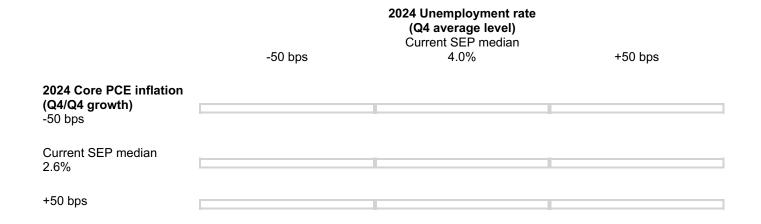

3e) Please indicate the percent chance* that you attach to the longer run target federal funds rate — the level the target federal funds rate would be expected to converge to under appropriate monetary policy and in the absence of further shocks to the economy — falling in each of the following ranges.

≤ 1.50%	1.51 - 2.01 - 2.00% 2.50%		2.51 - 3.00%	3.01 - 3.50%	≥ 3.51%	Total
0 %	0 %	0 %	0 %	0 %	0 %	0 %

^{*}Responses should add up to 100 percent. For reference, a similar question was last asked in the September 2023 survey.

4) The following matrix lays out hypothetical scenarios in which the realized levels of the 2024 unemployment rate (Q4 average level) and 2024 core PCE inflation (Q4/Q4 growth) are either 50 basis points above, below, or equal to the medians of FOMC participants' projections for these indicators in the current (March 2024) Summary of Economic Projections (SEP). For example, the upper left box represents a scenario in which the unemployment rate and core PCE inflation are both 50 basis points below the current SEP medians.

For each of the following scenarios, please indicate the level of the target federal funds rate or range that you expect would prevail at the end of Q4 2024. If you expect a target range, please indicate the midpoint of that range in providing your response. Please provide your responses out to three decimal places.*

*For reference.	a similar	auestion w	as last	asked in	the	Sentember	2023	surve

5a) Please provide your modal expectation for the average level of specified assets over each of the periods below. Average level amounts referenced below are in \$ billions.

Average level over each period (\$ billions)

Note: U.S. Treasuries and Agency MBS do not need to sum to Total Assets*

	March 2024 (Actual**)	April 2024	May 2024	June 2024	July 2024	August 2024	September 2024
U.S. Treasuries:	4625						
Agency MBS:	2401						
Total Assets*:	7578						

Average level over each period (\$ billions)

Note: U.S. Treasuries and Agency MBS do not need to sum to Total Assets*

	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
U.S. Treasuries:						
Agency MBS:						
Total Assets*:						

^{*}Refers to total factors supplying reserve funds in H.4.1.

^{**}Average of H.4.1 weekly averages of daily figures.

5b) Please provide your modal expectation for the average level of specified liabilities over each of the periods below. Average level amounts referenced below are in \$ billions.

The displayed level for total liabilities and capital is computed from total assets in part 5a. For 2024 Q2 through 2024 Q3, monthly averages from part 5a are averaged to reflect quarterly horizons.

Average level over each period (\$ billions)

	2024 Q1 (Actual*)	2024 Q2	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
Total Liabilities and Capital	7661								

Note: line items below do not need to sum to Total Liabilities and Capital

	2024 Q1 (Actual*)	2024 Q2	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
Reserves:	3538								
Currency in Circulation:	2335								
Overnight Reverse Repurchase Facility:	569								
Treasury General Account:	789								

^{*}Average of H.4.1 weekly averages of daily figures.

A summary of assets and liabilities responses are below. Please review and return to the question to make any edits before proceeding.

Other Assets is calculated as the difference between Total Assets* and the sum of U.S. Treasuries and Agency MBS. For assets in 2024 Q2 through 2024 Q3, monthly averages are averaged to reflect quarterly horizons. Other Liabilities and Capital is calculated as the difference between Total Liabilities and Capital and the sum of Reserves, Currency in Circulation, Overnight Reverse Repurchase Facility, and Treasury General Account.

Average level over each period (\$ billions)

Assets:

	2024 Q1	2024 Q2	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
U.S. Treasuries	4686								
Agency MBS	2416
